

Ergonomics & Human Factors 2023

Call for Submissions

This international conference will feature face to face talks, discussion and debate on contemporary topics that are important in the world today. We invite submissions covering research, practice, challenges and opportunities that demonstrate the

impact ergonomics and human factors can make. The event will be immediately preceded by a day of Masterclasses open to all on a range of tools and techniques, in parallel with a Doctoral Consortium for PhD students.

Themes

EHF2023 will showcase sectors, applications and techniques. Topics could include:

- ❖ Climate Ergonomics
- ❖ Healthcare
- ❖ Transport
- ❖ Energy
- ❖ Manufacturing
- ❖ Defence
- ❖ Systems
- ❖ Design
- ❖ Automation
- ❖ Cybersecurity
- ❖ Culture
- ❖ Safety
- ❖ Novel applications
- ❖ Physical ergonomics

Format

The conference will feature lectures, keynotes, paper and poster presentations and panel discussions, together with

opportunities to meet your human factors heroes and member leads and to build new connections and networks.

Submissions

This year, we're initially looking for short paper submissions only of no more than two pages. Following peer-review, the Programme Committee will invite a selected set of papers to expand their submissions into long papers

of no more than eight pages. All final accepted submissions, whether short or invited long papers, will be published in *Contemporary Ergonomics & Human Factors 2023*.

Key dates

Submissions open: 1 October 2022
Submissions close: 1 December 2022
Notifications by: end of January 2023

How will you be involved?
